The General Assembly - GA

The GA is made up of all members of the FIQ-SPSCODIM accreditation. At the moment, 3580 health care professionals constitute the membership. The GA is the body with the supreme authority. It's powers, just like the executive committee and the intermediate council, are listed in the bylaws (all the regulations for the conduct of our organization). When you, as a member, participate to your GA, you voice your opinion, you speak collectively but most of all, you take a stand on your working conditions. **Take a stand on work time arrangements. Join us on August 31st!**
