

## An agreement ratified by a strong majority

Meeting in a special federal council on November 18 and 19, the delegates learned the details of the agreement in principle reached between the FIQ and the government of Quebec. This agreement contains the intersectorial and sectorial matters. By a large majority they decided to recommend its acceptance to the members of the Federation. If the members in turn accept it, this agreement will become the next collective agreement for more than 58,000 healthcare professionals in Quebec

## This January 19 and 20

### Referendum on the agreement

On January 19 and 20, the healthcare professionals in all the FIQ institutions, will be asked to decide on the agreement in principle.

Check your bulletin boards until then as there will be a general assembly in your institution.

You will be given a more detailed document at this general assembly.

Attend in great numbers, your local team will be able to answer all your questions!

## CSSS of Saint-Jérôme

### The healthcare professionals in the institution denounce the deplorable working conditions

On November 10, the FIQ and the Syndicat des professionnelles en soins de Saint-Jérôme, organized a rally in front of the Hôpital régional de Saint-Jérôme to denounce the worsening of the climate and the working conditions at the CSSS de Saint-Jérôme. A petition with nearly 450 signatures was also submitted to the administration to that end.
