To discover Feminist websites and resources

The project of the *États généraux de l'analyse et de l'action féministes* (The Estates-General on feminist analysis and action), launched on May 27 and 28 in Montréal, is not a unique event, but rather a collective approach of reflection and discussion spread out until 2013, providing several steps and different activities such as public assemblies, seminars and regional tours. Its aim is to enable the feminist movement to acquire a vision of the future and to meet the challenges over the coming decades.

In order to fuel the reflections for the Estates-General, the *Fédération des femmes du Québec* (FFQ) suggests a consultation of different websites.
