

The public awareness campaign continues throughout Québec!

Montréal – Stand at Expo de Saint-Hyacinthe

The summer period has not slowed down healthcare professionals who are pursuing their activities to raise public awareness of the problem experienced in the healthcare system.

All over Quebec, the professionals are informing the public about the working conditions of healthcare professionals, the impacts of the budget cuts on the delivery of care and on the negotiating issues for renewal of their collective agreement.

CSSS de l'Énergie
A major gain for the FIQ

After several months of negotiations, the nurses working at the CHLSD at CSSS de l'Énergie in the Mauricie-Centre-du-Québec region are now all recognized with the job title of Nurse-Team Leader. The union representatives can be proud of this grievance settlement, totaling \$50,000 for the nurses affected.

Activities for healthcare professionals

Barbecue for the annual party
 CSSS Drummond

Whether to offer healthcare professionals a moment of relaxation or exchange ideas with them, in a festive setting, on the negotiations currently under way with the Government, several union teams have organized various activities. Members of the FIQ Executive Committee were present to meet and discuss with the members.

Healthcare professionals post their demands

In July and August, healthcare professionals will wear stickers presenting the FIQ's demands on certain sectoral issues in the negotiations.

For the weeks of July 27 and August 3, the sticker mentions the high percentage of part-time positions.

Distributing treats – CSSS Dorval-Lachine-Lasalle

Hot Dogs Day and distribution shirt – CSSS Ahuntsic and Montréal-Nord

Recognition Day

Summer period

FIQ Express will be back on August 26. In the meantime, follow the FIQs' activities on its Facebook page, FIQ - Santé. At the end of August, the publication will resume its schedule, every second Wednesday. Have a great summer!
